

Evaluation of optimal COnditions of FLOculation

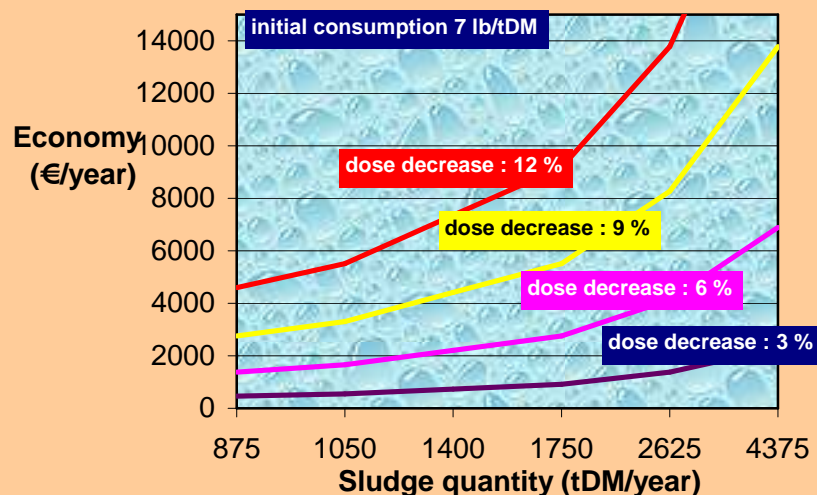

E.C.O.FLOC

IFTS possess a recognized expertise in the chemical conditioning, coagulation and flocculation, of liquids, pulps and sludge. Our latest innovation, validated at the European level, is ECOFLOC.

The advantages of E.C.O.FLOC

- ◆ Decrease consumption of flocculent,
- ◆ Reduce the amount of maintenance work,
- ◆ Improve the clarification of liquids,
- ◆ Improve productivity and dry matter content...
- ◆ Easy to implement,
- ◆ **Reduced costs and initial outlay back in 1 year!**

Economy per year of the flocculent cost versus the flocculent dose decrease

**DECREASE FLOCCULENT CONSUMPTION
AND MAINTAIN THE PERFORMANCE OF YOUR EQUIPMENT**
